

nanoString
SUMMIT 2021

LYON, FRANCE – 21st October 2021

Hotel Sofitel Bellecour
Lyon

10:00-11:00 Arrivals & Registration with coffee

11:00-12:00 Nanostring Spatial Biology Roadmap: Whole Transcriptome Digital Spatial Profiling and sub-cellular multi-omic spatial Molecular Imaging

Sarah Warren | PhD
Sr. Dir. of Research and Dev.
NanoString Technologies
Seattle – WA

12:00-12:30 Understanding the immune contexture and trajectory of oral cancer

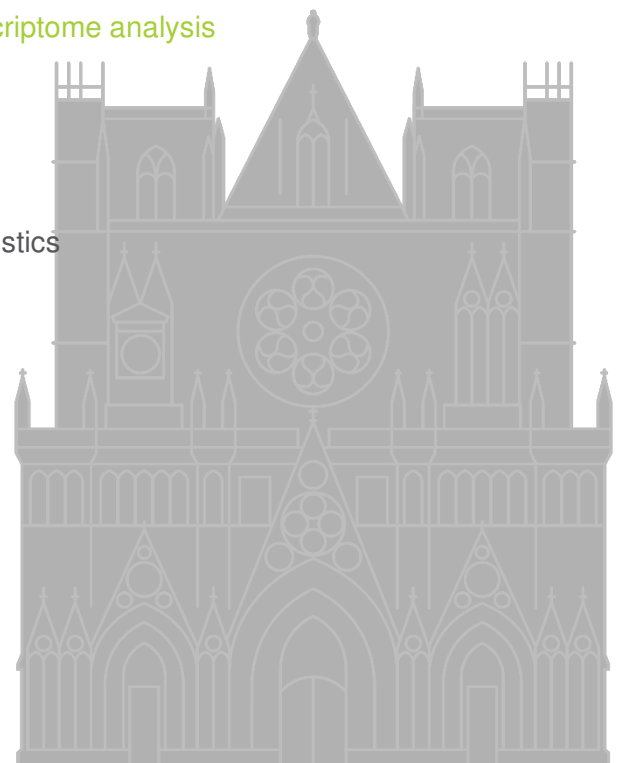

Dr Pierre Saintigny | MD, PhD
Medical oncologist and physician-scientist
Leon Berard Cancer Research Center
Lyon, France

12:30-14:00 Lunch and Poster Session

14:00-14:30 Informatics advances on spatial Whole Transcriptome analysis

Rich Boykin | PhD
Sr. Director, Bioinformatics & Biostatistics
NanoString Technologies
Seattle – WA

14:30-15:00 Tips on Experimental Design, ROI & Morphology markers

Christoph Koenig | PhD
Sr. Product Application Specialist.
NanoString Technologies
Germany

15:00-15:30 Investigating determinants of response to immunotherapy in sarcomas with the GEOMX Whole transcriptome platform

Pr Antoine Italiano | MD PhD
Head of Early Phase Trials and Sarcoma Units
Institut Bergonie
Bordeaux, France

15:30-16:00 Break: Coffee with Posters and Technical Corner visit

16:00-16:30 Workflow panel discussion (Nanostring and partner)

16:30-17:00 Closing remarks

17:00- 17:30 Social activities (Local Pastries)
