

nanoString

# SUMMIT 2021

**LAUSANNE, SWITZERLAND – 22<sup>nd</sup> October 2021**

AGORA, Swiss Cancer Center Léman

**09:00-10:00** Arrivals & Registration with coffee - Atrium

**10:00-11:00** Nanostring Spatial Biology Roadmap: Whole Transcriptome Digital Spatial Profiling and sub-cellular multi-omic spatial Molecular Imaging

**Sarah Warren | PhD**  
Sr. Dir. of Research and Dev.  
NanoString Technologies  
Seattle – WA

**11:00-12:00** A user experience at: from project design to GeoMx data

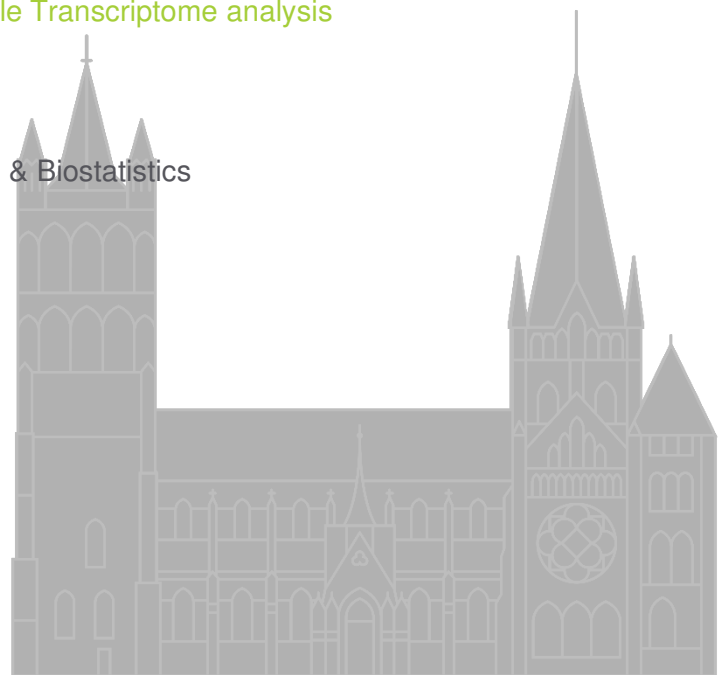

**Stéphanie Tissot | PhD**  
Pr Coukos lab - Immune Landscape Laboratory  
Platform CHUV - Lausanne University Hospital

**12.00-12.30** Informatics advances on spatial Whole Transcriptome analysis

**Rich Boykin | PhD**  
Sr. Director, Bioinformatics & Biostatistics  
NanoString Technologies  
Seattle – WA

**12.30-14.00** Lunch, Networking and Poster Session

**14.00-14.30** Tips on Experimental Design, ROI & Morphology markers

**Rudy van Eijsden | PhD**

Sr. Manager Product Application Scientist.  
NanoString Technologies  
The Netherlands

**14.30-15.00** Spatial biology in Centre Jean Perrin (Clermont-Ferrand, France): Integration of GeoMx DSP, where we are and where we are going.

**Nina Radosevic | MD, PhD**

Pathologist at Centre Jean Perrin Cancer Institute,  
Clermont Auvergne University, Inserm  
France

**15.00-15.30** Workflow panel discussion (Nanostring and partner)

**15:30-16:00** Closing remarks and Q&A

**16:00-17:00** Posters - Technical Corner visit and Social Activity
