### Section 4 - First Aid Measures

#### 4.1 Description of first aid measures

- **Inhalation**: Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing.
- **Skin**: In case of contact with substance, immediately flush skin with running water for at least 20 minutes.
- **Eye**: In case of contact with substance, immediately flush eyes with running water for at least 20 minutes.
- **Ingestion**: If swallowed, rinse mouth with water (only if the person is conscious). If large quantities are swallowed, call a physician immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to Physician**: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

### Section 5 - Firefighting Measures
